### OHSA's Appeal about Working in the Sun and Heat

23 June 2021

With the current increase in environmental temperature and heatwave warning, the Occupational Health and Safety Authority (OHSA) would like to once again draw the attention of all those who work in the sun and in the heat, to take all the necessary measures to prevent health problems which might have serious consequences.

Further information about the dangers associated with this type of work, the measures to be taken as well as information on the duty-holders can be found in an OHSA's guidance document 'Working in the Sun and Heat'. This guidance document is available in both English and Maltese and can be downloaded free of charge from OHSA's Facebook page or by following these links:
